

SCIENCE FOR THE BENEFIT OF HUMANITY

Resource Center Presentation Series Winter 2011 – Spring 2012

All presentations will take place at 4:00 pm in Weiss 305

December 1, 2011 Alison North Ph.D., RU

"Fourier Space – The Final Frontier.... To Boldly Image What No Microscopist has Imaged Before..."

January 5, 2012 Frances Weis-Garcia Ph.D., MSKCC

"Monoclonal Antibodies – Customized Research Tools"

January 12, 2012 Yufeng Wei Ph.D., RU

"New Adventures of NMR Spectroscopy"

January 26, 2012 Svetlana Mazel Ph.D., RU and Robert Balderas, MS,

Vice President of Biological Sciences, Cell Analysis, BD Biosciences

"FCRC – 15 min Overview" followed by "Isolation and Analysis of Pluripotent Stem Cells and Their Neural Derivatives Using Flow Cytometry and CD Markers"

February 9, 2012 Chingwen Yang Ph.D. & Rada Norinsky MS, RU

"Gene Targeting Resource Center and Transgenics Laboratory"

February 16, 2012 Ravi Tolwani DVM, RU

"Comparative Bioscience Center"

February 23, 2012 Fraser Glickman Ph.D., RU

"Core Technologies for the Measurement of Biomolecular Interactions"

March 1, 2012 Kunihiro Uryu Ph.D., RU

"Electron Microscopy - Bridge Between Molecule and Cell"

March 8, 2012 Henrik Molina Ph.D., RU

"Proteomics Resource Center"

March 15, 2012 Connie Zhao Ph.D., RU

"Genomics Resource Center"

March 22, 2012 Barry Coller MD, RU

"Resources Available From the Rockefeller Center for Clinical and Translational Science"

March 29, 2012 Deena Oren Ph.D., RU

"Structural Biology Resource Center"

April 26, 2012 Julie White DVM, Dipl. ACVP, MSKCC

"The Tri-Institutional Laboratory of Comparative Pathology: Who We Are, What We Do, and What We Can Do for You"
