BIOGRAPHY

The Manhattan Chamber Players (MCP) is a chamber music collective of New York–based musicians who share the common aim of performing the greatest works in the chamber repertoire at the highest level. Formed in 2015 by Artistic Director and violist Luke Fleming, MCP is comprised of an impressive roster of musicians who all come from the tradition of great music making and are former students of The Curtis Institute, The Juilliard School, Colburn School, and New England Conservatory.

At the core of MCP’s inspiration is its members’ joy in playing this richly varied repertoire with longtime friends and colleagues, with whom they have been performing since they were students. Its roster allows for the programming of the entire core string, wind, and piano chamber music collection—from piano duos to clarinet quintets to string octets.

PROGRAM

Frank Bridge (1879-1941)
Phantasy Piano Quartet in F-sharp Minor, H. 94

Ralph Vaughan Williams (1872-1958)
Piano Quintet in C Minor
   Allegro con fuoco
   Andante
   Fantasia, quasi variazioni

INTERMISSION
(15 minutes)

Antonín Dvořák (1841-1904)
Piano Quartet No. 2 in E-flat Major, Op. 87
   Allegro con fuoco
   Lento
   Allegro moderato, grazioso
   Allegro ma non troppo

Photography and video recording during the performance are strictly prohibited.

Program and personnel subject to change.
As a courtesy to the artists, please remain seated until they have left the hall.
Manhattan Chamber Players appear by arrangement with Arts Management Group, Inc.
MEET THE PLAYERS

Adam Golka, piano  Brendan Speltz, double bass
Brendan Speltz, violin  Luke Fleming, viola

Adam Golka (piano) has garnered numerous accolades since the start of his professional journey. His Carnegie Stern Auditorium debut in 2010 with the New York Youth Symphony marked a significant milestone in his career, further solidifying his reputation as a leading pianist on the international stage. Beyond his performances, Mr. Golka is Artist-in-Residence at the College of the Holy Cross in Worcester, Massachusetts, where he has imparted his knowledge and passion for music to aspiring musicians.

Brendan Speltz (violin), second violinist of the world renowned Escher String Quartet, has toured the globe with groundbreaking ensembles. He has performed as a guest with the New York New Music Ensemble, Mark Morris Dance Group, and American Ballet Theatre, among others, and as a founding member of the conductorless string orchestra, Shattered Glass. He received his bachelor's degree from the University of Southern California and his Master's degree from the Manhattan School of Music. Mr. Speltz plays a 1925 Carl Becker violin.

Luke Fleming (viola) assumed the role of Founding Artistic Director for both the Manhattan Chamber Players and the Crescent City Chamber Music Festival in 2015, showcasing his commitment to nurturing young talents and enriching the cultural landscape. Mr. Fleming is Adjunct Professor of Viola at the University of New Orleans School of the Arts, where he shares his expertise with aspiring musicians. Additionally, as a founding member of the Seraph Ensemble, he continues to champion chamber music excellence. Mr. Fleming holds degrees from The Juilliard School and the Royal Academy of Music.

Brook Speltz (cello) is the cellist of the internationally renowned Escher String Quartet—Quartet-in-Residence at Southern Methodist University in Dallas—and an artist of the Chamber Music Society of Lincoln Center. He has performed as a soloist, chamber musician, and recitalist throughout the US, Canada, Latin America, Europe, and Asia. Mr. Speltz studied at the renowned Curtis Institute of Music and at the Juilliard School. He performs on a 1756 J.C. Gigli on loan from his father, a cellist and his first inspiration in a family of professional musicians.

Pawel Knapik (double bass) showcased his musical talent early, securing second prize in the XVI International Bach Competition for Strings after just one year of instruction. Graduating with top honors from the Lipinski Academy of Music, his professional musical journey spans continents, with performances across the US, Europe, and Central America. Mr. Knapik remains active in premiering new works and spearheading innovative projects, such as his solo performances of contemporary compositions and the establishment of the “Pawel Knapik and Friends” ensemble.

2023–2024 PEGGY ROCKEFELLER CONCERT DONORS

The concert series was founded in 1958 by Professor Theodore Shedlovsky and renamed in 1996 in memory of Peggy Rockefeller, wife of longtime chair David Rockefeller. The Rockefeller University gratefully acknowledges the following contributors who make it possible for us to offer affordable tickets for every performance, as well as subsidized tickets for students and postdoctoral fellows:

IN MEMORIAM

David Rockefeller (1915-2017)

Lead Benefactor
The Rosalind Massow Luger Fund
George and Gail Hunt Reeke

Sponsor ($500 - $999)
Steven and Rosalie David  Paul Sekhri and Mark Gude and the Sekhri Family Foundation
Richard and Deborah Lifton  Estelle Irene Young, M.D.

Advocate ($250 - $499)
Mary D. and John C.M. Brust  Alexandra Nichols
Lisa Kole  Richard Pershan
Leanne Lachman  Gerald F. Vovis
Norbert Lanners  Pearl Zeng

Patron ($100 - $249)
Joan and Neil Barkin  Thomas Kelly
Donna Barreiro  Rachael Kolb
Jonathan D. Beard  Sondra Kurtin
Martin Bell  Lilian Quah and Shelley Linenbach
Jo F. and Arthur E. Brown  Arnold Lisio
Rochelle Cohen  Patrice Lord
Maureen K. Clancy  Larry Mitchell
Irene Drivas  Kathleen Murtha
George Drummond  Louis Reuter
Joan Dunham  Gerald Rolle
John Freund  Gordon and Roslyn Silverman
Elaine Goldhill  Donna Stein
Thomas J. Guglielmo  Sandra T. Stein
Kathleen Haines Gotschlich  Michele and Richard Sterner
Karen Jakes  Ellen and Keith Weldon

Friend (up to $99)
Elizabeth Adams  Patricia Hogan
Tema Blackstone  Luz Jubierre Zapter
Carmen Bowser  Teresa Lavin Sack
Rosemarie Burkhardt  Barbara R. Rauch
Sheri Chromow  Judith Schwartz
M. Jean Connolly  Matthew Stuart
Jennifer Cou tts Clay  Anne Telford
Ralph Garippa  Gail Triggs
Sebastian Gonzalez  Lu Wang
Charlene Green  John Watters

As of March 11, 2024
The Rockefeller University

The Rockefeller University is one of the world’s foremost institutions dedicated to research and graduate education in the biomedical sciences, chemistry, and physics. Founded by John D. Rockefeller, Sr., in 1901 as The Rockefeller Institute for Medical Research, it was the first institute in the United States devoted exclusively to biomedical research. In the 1950s, the institute expanded its mission to include graduate education. It was renamed The Rockefeller University in 1965.

The university’s laboratory-based structure encourages collaborations between disciplines and empowers faculty members to take on high-risk, high-reward projects. No formal departments exist, bureaucracy is kept to a minimum, and scientists are given resources, support, and unparalleled freedom to follow the science wherever it leads.

The Rockefeller University Community
• 70 heads of laboratory
• 200 research scientists
• 210 postdoctoral investigators
• 255 Ph.D. and M.D.-Ph.D. students
• 1,431 alumni
• 1,325 support staff

Acclaimed Scientists
In the course of Rockefeller’s history, 26 of its scientists have been awarded the Nobel Prize; 25 have received a Lasker Award; and 20 have garnered the National Medal of Science, the nation’s highest scientific honor.

At Present, the Faculty at Rockefeller Includes
• 5 Nobel laureates
• 6 recipients of Lasker Awards
• 33 members of the National Academy of Sciences
• 4 recipients of MacArthur Fellowships
• 3 recipients of the National Medal of Science

Some Clinical Concerns under Study
• Aging
• Alzheimer’s disease
• Antibiotic resistance
• Autism
• Cancer
• COVID-19
• Diabetes
• Epilepsy
• Heart disease and stroke
• Hepatitis
• HIV/AIDS
• Multiple sclerosis
• Obesity, nutrition, and weight loss
• Parkinson’s disease
• Skin diseases
• Vaccine development
• Vision and hearing disorders

An Exceptional Place to Learn
Rockefeller’s Ph.D. program offers training in the biomedical and physical sciences. With neighboring Memorial Sloan Kettering Cancer Center and Weill Cornell Medicine, the university also offers one of the nation’s top M.D.-Ph.D. programs. In addition, Rockefeller provides intensive postgraduate training. At any one time, more than 200 postdoctoral investigators conduct research in university laboratories. Rockefeller’s acclaimed Clinical Scholars Program, a three-year master’s degree program, provides a unique opportunity for recent M.D. or M.D.-Ph.D. recipients to begin careers in patient-oriented research. Working with senior faculty members, clinical scholars develop and implement translational research studies at The Rockefeller University Hospital.

Infrastructure that Fosters Collaboration and Interaction
Rockefeller invented the modern bioscience institute, and has spent the past 122 years perfecting it. The university’s beautifully landscaped 16-acre campus includes nine research buildings containing roughly 500,000 square feet of laboratory space, where investigators employ the latest technology to answer the most challenging questions in their fields. The Stavros Niarchos Foundation–David Rockefeller River Campus, which opened in 2019 and features the Marie-Josée and Henry R. Kravis Research Building, provides a number of new amenities, including additional cutting-edge laboratory space, a river view dining commons, academic and conference centers, and magnificent rooftop gardens.

The Rockefeller University
Established in 1910, The Rockefeller University Hospital was the first hospital in the nation dedicated exclusively to patient-oriented investigations. Patients at the hospital are participants in clinical studies that build on basic research findings from Rockefeller laboratories. This allows the university to maintain an unbroken spectrum of research, from basic to clinical.
