

# Dorian Wind Quintet

Benjamin Fingland, clarinet  
Roni Gal-Ed, oboe  
Karl Kramer-Johansen, French horn  
Adrian Morejon, bassoon  
Anthony Trionfo, flute

THURSDAY, JANUARY 29, 2026 | 7:30 P.M.  
CASPARY AUDITORIUM

## Program

Johann Sebastian Bach (1685–1750)

Prelude and Fugue in D Minor, BWV 539, the “Fiddle Fugue”

Amanda Harberg (b. 1973)

Suite for Wind Quintet (*Commissioned by Dorian Wind Quintet, 2017*)

I. *Cantus*

II. *Furlana*

III. *Fantasia*

IV. *Cabaletta*

INTERMISSION

(15 minutes)

Antonín Dvořák (1841–1904)

String Quartet No.14 in A-flat Major, Op. 105, B. 193 (*Transcribed for  
Dorian Wind Quintet by Karl Kramer-Johansen*)

I. *Adagio ma non troppo. Allegro appassionato*

II. *Molto vivace*

III. *Lento e molto cantabile*

IV. *Allegro non tanto*

For more information about the concert series, please contact:

Dasha Lochoshvili • The Rockefeller University • 1230 York Avenue • New York, NY 10065  
212-327-8967 • [dlochoshvi@rockefeller.edu](mailto:dlochoshvi@rockefeller.edu) • [www.rockefeller.edu/peggy](http://www.rockefeller.edu/peggy)

Program and personnel subject to change.

As a courtesy to the artists, please remain seated until they have left the hall.  
Dorian Wind Quintet appears by arrangement with Arts28 LLC.

## Featuring

Benjamin Fingland, clarinet  
Roni Gal-Ed, oboe  
Karl Kramer-Johansen, French horn  
Adrian Morejon, bassoon  
Anthony Trionfo, flute

Recognized by critics, audiences, and colleagues alike for its polished and passionate performances, the **Dorian Wind Quintet** is internationally regarded as one of chamber music's pre-eminent and longest continuously active ensembles. The Quintet has toured widely throughout the United States and Canada, across Europe, and in the Middle East, Africa, and Asia, and made history in 1981 as the first wind quintet to appear at Carnegie Hall.

Founded at Tanglewood in 1961, the Dorian has collaborated with many of the most distinguished artists of the 20th and 21st centuries, including Jean-Pierre Rampal, Lukas Foss, Ruth Laredo, and the American Brass Quintet, among others. The ensemble has appeared at major international festivals such as the Stravinsky Festival at Lincoln Center, the Caramoor International Music Festival, and the International Festival in Warsaw.

The Quintet has served as a resident ensemble at the Mannes College of Music, Brooklyn College, Hunter College, and the State University of New York, and has held residencies at Tanglewood, Dartington Hall, and Newberry in England, as well as a decade-long residency at the Festival Institute at Round Top, Texas.

Committed to advancing the wind repertoire, the Dorian has commissioned nearly 40 works by leading composers including Luciano Berio, Joan Tower, Jacob Druckman, and George Perle. Its commission of Perle's Wind Quintet No. 4 received the Pulitzer Prize for Music in 1986, marking the first time the award was given to a work for wind quintet.

In New York City, the Dorian partners with the Pro Musicis Foundation, bringing chamber music of the highest quality to residents of assisted living and rehabilitation facilities, hospitals, schools, and community centers. Through this work, the Quintet remains deeply committed to broadening access to live music while continuing to enrich the cultural life of its home city.

## 2025–2026 Peggy Rockefeller Concert Donors

The concert series was founded in 1958 by Professor Theodore Shedlovsky and renamed in 1996 in memory of Peggy Rockefeller, wife of longtime chair David Rockefeller. The Rockefeller University gratefully acknowledges the following contributors who make it possible for us to offer affordable tickets for every performance, as well as subsidized tickets for students and postdoctoral fellows:

### IN MEMORIAM

David Rockefeller (1915-2017)

### Lead Benefactor

George and Gail Hunt Reeke

### Sponsor (\$500 - \$999)

Sherry T. Bloom	Paul Sekhri and the
Kathleen Gotschlich	Sekhri Family Foundation
Alice and Ronald Hoffman	Estelle Irene Young, M.D.
Tammany Patrick	Li Zeng

### Advocate (\$250 - \$499)

Arthur E. and Jo F. Brown	Sondra Kurtin Robinson
Mary D. and John C.M. Brust	Leanne Lachman
Maureen Clancy	Richard Pershan <i>in memory of</i>
Harriet Kang and Daniel Wellner	<i>Kathryn Shaeffer Pershan</i>
Thomas Kelly	

### Patron (\$100 - \$249)

Carole Artigiani	Lisa Kole
Carmen M. Bowser	Shelley Linenbach and Lilian Quah
Rochelle S. Cohen	Patrice Lord
Liang Deng and Zhongxue Hua	Larry Mitchell
George Drummond	Alexandra Nichols
John Farago	David Starr
Patricia and David Hogan	Michele and Richard Sterner
Karen and Peter Jakes	Gerald Vovis
	Keith and Ellen Weldon

### Friend (up to \$99)

Martin and Alison Bell	Gary Leibowitz
Media Berghout	Tatiana Monastyrskaya
M. Jean Connolly	Igor Monastyrsky
Seth Darst	Barbara Pedley
Margaret Diaz-Cruz	Renee Petrofes and Gerry McNamara
Angeles Duran	Barbara Rauch
Ira and Myrna Epstein	Carmen Ross
Jane Gross	Marjorie Russel
Ellen Hymowitz	Adina Schwartz and Peter D'Eustachio
Lois Kauffman	Joann Sicoli

As of January 28, 2026

## The Rockefeller University

The Rockefeller University is one of the world's foremost institutions dedicated to research and graduate education in the biology, chemistry, and physics. Founded by John D. Rockefeller, Sr., in 1901 as The Rockefeller Institute for Medical Research, it was the first institution in the United States devoted exclusively to biomedical research. In the 1950s, the institute expanded its mission to include graduate education. It was renamed The Rockefeller University in 1965.

In 2026, Rockefeller University is commemorating 125 years of advancing science for the benefit of humanity. This is a milestone for the university community, as well as a landmark occasion for the global scientific enterprise. In conjunction with the 125th anniversary, Rockefeller is also marking 70 years of the David Rockefeller Graduate Program. Discover 125 is a celebration of these two notable anniversaries.

### The Rockefeller University Community

- 72 heads of laboratory
- 200 research scientists
- 210 postdoctoral investigators
- 270 Ph.D. and M.D.-Ph.D. students
- 1,512 alumni
- 1,325 support staff

### Acclaimed Scientists

In the course of Rockefeller's history, 26 of its scientists have been awarded the Nobel Prize; 26 have received a Lasker Award; and 20 have garnered the National Medal of Science, the nation's highest scientific honor.

### At Present, the Faculty at Rockefeller Includes

- 5 Nobel laureates
- 7 recipients of Lasker Awards
- 34 members of the National Academy of Sciences
- 4 recipients of MacArthur Fellowships
- 3 recipients of the National Medal of Science

### Some Clinical Concerns under Study

- Aging
- Alzheimer's disease
- Antibiotic resistance
- Arthritis
- Autoimmune disorders
- Autism
- Cancer
- Covid-19
- Diabetes
- Heart disease and stroke
- Hepatitis
- HIV/AIDS
- Obesity, nutrition, and weight loss
- Parkinson's disease
- Skin diseases
- Tuberculosis
- Vaccine development
- Vision and hearing disorders

### The Rockefeller University Hospital

Established in 1910, The Rockefeller University Hospital was the first hospital in the nation dedicated exclusively to patient-oriented investigations. Patients at the hospital are participants in clinical studies that build on basic research findings from Rockefeller laboratories. This allows the university to maintain an unbroken spectrum of research, from basic to clinical.

## Groundbreaking Accomplishments

Among the pioneering discoveries at Rockefeller are many seminal advances that have transformed science and reduced human suffering. Scientists at Rockefeller:

- Discovered that DNA is the chemical of heredity
- Developed vaccines against meningitis and pneumococcal pneumonia
- Determined that cancer can be caused by a virus
- Discovered blood groups, improving the safety of blood transfusions
- Isolated and first successfully tested natural antibiotics
- Developed methadone maintenance to treat opioid addiction
- Developed the combination drug therapy for treatment of AIDS
- Showed that an adult brain of a higher species can form new nerve cells
- Discovered an obesity gene and the weight-regulating hormone leptin
- Discovered the dendritic cell, a key regulator of the immune system
- Identified the molecular mechanisms controlling circadian rhythm
- Developed assays that paved the way for drugs that cure hepatitis C
- Discovered GLP-1, the basis of revolutionary weight-loss drugs

### An Exceptional Place to Learn

Rockefeller's Ph.D. program offers training in the biomedical and physical sciences. With neighboring Memorial Sloan Kettering Cancer Center and Weill Cornell Medicine, the university also offers one of the nation's top M.D.-Ph.D. programs. In addition, Rockefeller provides intensive postgraduate training. At any one time, more than 200 postdoctoral investigators conduct research in university laboratories. Rockefeller's acclaimed Clinical Scholars Program, a three-year master's degree program, provides a unique opportunity for recent M.D. or M.D.-Ph.D. recipients to begin careers in patient-oriented research. Working with senior faculty members, clinical scholars develop and implement translational research studies at The Rockefeller University Hospital.

### Infrastructure that Fosters Collaboration and Interaction

Rockefeller invented the modern bioscience institute, and has spent the past 124 years perfecting it. The university's beautifully landscaped 16-acre campus includes nine research buildings containing roughly 500,000 square feet of laboratory space, where investigators employ the latest technology to answer the most challenging questions in their fields. The Stavros Niarchos Foundation–David Rockefeller River Campus, which opened in 2019 and features the Marie-Josée and Henry R. Kravis Research Building, provides a state-of-the-art laboratory space, a river view dining commons, academic and conference centers, and magnificent rooftop gardens.

\* \* \* \* \*

The Rockefeller University is an independent, nonprofit institute that relies on a broad base of government and private support to advance its mission of biomedical research. Each year, a committed group of individuals, foundations, and corporations helps to fund the university's scientific and educational programs. For information about these programs, or to discuss ways in which you can support and advance the work of the university, please contact:
